Description:

Optimize the sanding process in your body shop and realize the right quality at first go! A well-structured workplace organization is key for a process-oriented repair job. The **Audurra Sanding Solution Cart** is the key component to achieve a standardized repair process to get a smooth workflow in the body shop. Thanks to this mobile cart all needed abrasives, tools and machines are always at the place of action. Unnecessary routes and movements could be avoided and the time-consuming search for the right materials in the body shop will become a thing of the past.

The images on the following pages are showing the full equipped cart. Vacuum cleaner, sanding machine, abrasives, backing pad and hand blocks are not included in the scope of delivery.

Features & benefits:

- process-oriented workplace organization
- coherent system
- no abrupt changes of sanding grits thanks to standardized equipped cart
- faster job training / onboarding for new employees
- less movements required
- less material (SKUs) required
- tools and machines at the place of action
- higher workplace appreciation
- a standardized process guarantees constant quality and less rework
- improved customer body shop perception

Highlights:

5 compartments for 5 grits of Ø 150mm discs

5 velcro inserts (flexible positioning possible) to place backup pads, interface pads or hand blocks

Lockable door

4 swivel wheels, 2 with breaks

Placement positions for up to 3 sanding machines

The Audurra Sanding Solution Cart offers sufficient space to accommodate even bulky M-class vacuum cleaners. Thanks to the swiveling wheels, the wide handle and the compact construction the operator can easily maneuver the cart, even if fully equipped and loaded.

Only for the unusual big vacuum cleaners of the CT-class the optional available **Audurra CT-adapter** D15379364 is needed. We recommend to remove the wheels of these cleaners to ensure they perfectly fit into the cart as well – with the adapter support.
